

ABRASIVE WHEELS – TRAINING

DURATION

1/2 Day

COST

£50.00 per person

OBJECTIVE

To provide delegates with a knowledge and understanding relating to the safe use of Abrasive Wheels including precautions, how to identify potential hazards, correct means of storage and all required inspections before use.

TARGET GROUP

Rather sadly, incidents involving abrasive wheels, disks and machines continue to occur worldwide for a variety of reasons. These incidents have left operators badly injured, and in some cases, permanently disfigured. With a well-trained workforce, industry should see a significant drop in these cases. We at Kaizen Safety possess the expertise to provide the required training to your workforce.
